Claudio Meneguzzer

Selected Publications

Boyce D.E., Hochmuth J.J., Meneguzzer C., Mortimer R.G. (1989). Cost-effective 3R roadside safety policy for two-lane rural highways. *Final Report FHWA/IL/RC-003 to Illinois Department of Transportation*, Illinois Universities Transportation Research Consortium, Chicago, IL, U.S.A.

Meneguzzer C. (1990). Implementation and evaluation of an asymmetric equilibrium route choice model incorporating intersection-related travel times. *Ph.D. Dissertation in Civil Engineering*, University of Illinois at Urbana-Champaign, Urbana, IL, U.S.A.

Boyce D.E., Meneguzzer C., Rouphail N., Sen A., Lauritzen T. (1990). An user-optimal route choice model with asymmetric cost functions incorporating intersection-related travel times. *Final Report FHWA/IL/RC-005 to Illinois Department of Transportation*, Illinois Universities Transportation Research Consortium, Chicago, IL, U.S.A.

Meneguzzer C. (1995). L'interazione tra controllo delle intersezioni e scelte di itinerario nelle reti stradali urbane. *Trasporti e Trazione*, 8, ISSN 1120-8732, pp. 22-29.

Meneguzzer C. (1995). An equilibrium route choice model with explicit treatment of the effect of intersections. *Transportation Research Part B*, 29, ISSN 0191-2615, pp. 329-356.

Meneguzzer C., Rossi R. (1996). Analisi sperimentale del processo di selezione degli intervalli nelle intersezioni stradali a priorità. *Trasporti e Trazione*, 9, ISSN 1120-8732, pp. 206-214.

Meneguzzer C. (1996). Computational experiments with a combined traffic assignment and control model with asymmetric cost functions. *Proceedings of the 4th International Conference on Applications of Advanced Technologies in Transportation Engineering* (Edited by Y.J. Stephanedes and F. Filippi), ASCE, New York, U.S.A., ISBN 0-7844-0146-2, pp. 609-614.

Meneguzzer C. (1997). Review of models combining traffic assignment and signal control. *Journal of Transportation Engineering*, 123, ISSN 0733-947X, pp. 148-155.

Meneguzzer C. (1998). Author's closure to the discussion on: Review of models combining traffic assignment and signal control. *Journal of Transportation Engineering*, 124, ISSN 0733-947X, p. 611.

Meneguzzer C. (1998). Note introduttive sulle attività dell'ingegneria dei sistemi di trasporto. *Pubblicazione del Dipartimento di Costruzioni e Trasporti, Università degli Studi di Padova* (Copie d'obbligo ai sensi art. 1 D.L.L. 31/8/1945 n. 660 depositate in data 4/6/1998).

Meneguzzer C. (2000). Stochastic User Equilibrium assignment with traffic-responsive signal control. In: *Spatial Economic Science: New Frontiers in Theory and Methodology* (Edited by A. Reggiani), Springer, Berlin/Heidelberg/New York, ISBN 3-540-67493-4, pp. 382-400.

Rossi R., Meneguzzer C. (2001). Modelli fuzzy per la simulazione dei comportamenti di gap acceptance nelle intersezioni stradali a priorità. *Trasporti e Trazione*, 14, ISSN 1120-8732, pp. 2-12.

Rossi R., Meneguzzer C. (2002). The effect of crisp variables on fuzzy models of gap-acceptance behaviour. *Proceedings of the 13th Mini-EURO Conference on "Handling Uncertainty in the Analysis of Traffic and Transportation Systems" and 9th Meeting of the EURO Working Group on Transportation,* Bari, Italy, June 2002, pp. 240-246.

Rossi R., Meneguzzer C. (2002). L'uso di osservazioni sperimentali per l'identificazione di modelli fuzzy del comportamento di gap-acceptance. In: *Metodi e tecnologie dell'ingegneria dei trasporti - Seminario 2000* (a cura di G.E. Cantarella e F. Russo), Franco Angeli, Milano, ISBN 88-464-3412-9, pp. 199-213.

Meneguzzer C. (2004). A modified iterative scheme for the equilibrium traffic signal setting problem. In: *Urban and Regional Transportation Modeling* (Edited by Der-Horng Lee), Edward Elgar Publishing, Northampton, MA, U.S.A., ISBN 1-84376-306-0, pp. 83-112.

Meneguzzer C. (2009). Testing alternative dynamic process models of the interaction between signal control and route choice. *Proceedings of the 13th Meeting of the EURO Working Group on Transportation*, Padova, Italy, September 23-25, 2009, Padova University Press, ISBN 978-88-903541-4-4.

Rossi R., Meneguzzer C., Gastaldi M. (2009). Transferability analysis of Logit models of gap acceptance behaviour. *Proceedings of the 13th Meeting of the EURO Working Group on Transportation*, Padova, Italy, September 23-25, 2009, Padova University Press, ISBN 978-88-903541-4-4.

Meneguzzer C. (2009). Capacity implications of equilibrium traffic signal setting under stochastic route choice. *Proceedings of the International Conference "The capacity of transport systems: arcs, nodes, services and technologies"*, Venice, Italy, November 5-6, 2009, ISBN 88-96049-18-0.

Meneguzzer C. (2010). Modelling the impact of unusual demand levels on the day-to-day dynamics of route choice and signal control. *Proceedings of the 7th Venice Transport International Conference "Big Events and Transport: the transportation requirements for the management of large scale events"*, Venice, Italy, October 28-29, 2010, ISBN 978-88-87697-51-3, pp. 43-60.

Rossi R., Meneguzzer C., Gastaldi M., Gecchele G. (2010). Comparative evaluation of Logit and Fuzzy Logic models of gap-acceptance behavior. *Proceedings of the 7th Triennial Symposium on Transportation Analysis (TRISTAN VII)*, Tromso, Norway, June 20-25, 2010, pp. 649-652.

Rossi R., Meneguzzer C., Gastaldi M. (2010). A comparison of methods for transferring Logit models of gap acceptance behaviour. *Selected Proceedings of the 12th World Conference on Transport Research*, July 11-15, 2010, Lisbon, Portugal, pp. C1-02160-1-15.

Rossi R., Gastaldi M., Gecchele G., Meneguzzer C. (2011). Transferability of fuzzy models of gap-acceptance behavior. In: *Soft Computing in Industrial Applications: Advances in Intelligent and Soft Computing*, Vol. 96 (Edited by A. Gaspar-Cunha, R. Takahashi, G. Schaefer and L. Costa), Springer, Berlin/Heidelberg, ISBN 978-3-642-20504-0, pp. 379-390.

Rossi R., Gastaldi M., Meneguzzer C., Gecchele G. (2011). Gap-acceptance behavior at a priority intersection: field observations versus experiments with a driving simulator. *Proceedings of the 90th Annual Meeting of the Transportation Research Board*, Washington, D.C., U.S.A., January 23-27, 2011.

Rossi R., Gastaldi M., Gecchele G., Meneguzzer C. (2011). Logit model versus fuzzy logic model for representing gap-acceptance behavior. *Proceedings of WSC16-The 16th Online World Conference on Soft Computing in Industrial Applications*, December 5-16, 2011.

Meneguzzer C., Rossi R. (2011). Evaluating the impact of pedestrian crossings on roundabout entry capacity. *Procedia: Social & Behavioral Sciences*, 20, ISSN 1877-0428, pp. 69-78.

Meneguzzer C., Olivieri A. (2012). Experimental analysis of day-to-day route choice dynamics in a three-link network without information provision. *SIDT2012: Atti del XIX Convegno Annuale e Seminario Scientifico della Società Italiana Docenti di Trasporti*, 18-19 ottobre 2012, Padova, Italy, pp. 228-231.

Rossi R., Gastaldi M., Gecchele G., Meneguzzer C. (2012). Comparative analysis of random utility models and fuzzy logic models for representing gap-acceptance behavior using data from driving simulator experiments. *Procedia: Social & Behavioral Sciences*, 54, ISSN 1877-0428, pp. 834-844.

Meneguzzer C. (2012). Dynamic process models of combined traffic assignment and control with different signal updating strategies. *Journal of Advanced Transportation*, 46, ISSN 0197-6729, pp. 351-365.

Rossi R., Meneguzzer C., Gastaldi M. (2013). Transfer and updating of Logit models of gap-acceptance and their operational implications. *Transportation Research Part C*, 28, ISSN 0968-090X, pp. 142-154.

Meneguzzer C., Rossi R. (2013). Analysis and control of the interaction between vehicular and pedestrian flows on roundabout approaches. *European Transport\Trasporti Europei*, 53, Paper n° 9, ISSN 1825-3997.

Rossi R., Gastaldi M., Gecchele G., Meneguzzer C. (2013). Fuzzy logic models of gap-acceptance behaviour at roundabouts. *16th Meeting of the EURO Working Group on Transportation*, Porto, Portugal, September 4-6, 2013.

Meneguzzer C., Olivieri A. (2013). Day-to-day traffic dynamics: Laboratory-like experiment on route choice and route switching in a simple network with limited feedback information. *Procedia: Social & Behavioral Sciences*, 87, ISSN 1877-0428, pp. 44-59.

Gastaldi M., Meneguzzer C., Gecchele G., Rossi R. (2013). Transferability of random utility models and fuzzy logic models for representing gap-acceptance behavior. *SIDT2013: Atti del XX Convegno Nazionale e Seminario Scientifico della Società Italiana dei Docenti di Trasporti*, 17-18 ottobre 2013, Trieste, Italy, pp. 92-95.

Rossi R., Gastaldi M., Gecchele G., Meneguzzer C. (2014). Fuzzy logic models of gap-acceptance behavior at roundabouts. In: *Computer-based Modelling and Optimization in Transportation* (Edited by J. Freire de Sousa and R. Rossi), Vol. 262 of the series *Advances in Intelligent Systems and Computing*, Springer, Berlin/Heidelberg, ISBN 978-3-319-04630-3, pp. 281-291.

Gastaldi M., Meneguzzer C., Rossi R., Della Lucia L., Gecchele G. (2014). Evaluation of air pollution impacts of a signal control to roundabout conversion using microsimulation. *Transportation Research Procedia*, 3, ISSN 2352-1465, pp. 1031-1040.

Gastaldi M., Meneguzzer C., Gecchele G., Rossi R. (2015). Comparing direct transferability of Logit and Fuzzy Logic models of gap acceptance at unsignalized intersections. *Transportation Research Procedia*, 5, ISSN 2352-1465, pp. 95-102.
