

ELENCO DELLE PUBBLICAZIONI
di MAZZIA ANNAMARIA
aggiornato a giugno 2018

● ARTICOLI SU RIVISTA

1. A. Mazzia, F. Mazzia, High-order transverse schemes for the numerical solution of PDEs, *Journal of Computational and Applied Mathematics*, Vol.82 (1-2), 1997, pp.299-311.
2. A. Mazzia, L. Bergamaschi e M. Putti, A time-splitting technique for advection-dispersion equation in groundwater, *Journal of Computational Physics*, 157, 2000, pp.181-198.
3. L. Bergamaschi, G. Gambolati, A. Mazzia, G. Pini, M. Putti, Mixed Finite Elements and Finite Volumes for Density Dependent Flow and Transport in Groundwater, *Ann. Univ. Ferrara, Sez. VII - Sc. Mat.*, Supplemento al Volume XLV, 2000, pp.179-190.
4. A. Mazzia, Elementi Finiti Misti e Volumi Finiti per la soluzione del problema di flusso e trasporto di contaminanti radioattivi pesanti in mezzi porosi, *Bollettino U.M.I. La Matematica nella Società e nella Cultura Serie 8, Vol. III-A*, 2000, pp.383-386.
5. A. Mazzia, L. Bergamaschi, M. Putti, On the reliability of numerical solutions of brine transport problems in groundwater: analysis of infiltration from a salt lake, *Transport in Porous Media*, 43 (1), 2001 pp. 65-86.
6. A. Mazzia, L. Bergamaschi, M. Putti, C. N. Dawson, Godunov Mixed Methods on Triangular Grids for Advection-Dispersion Equations, *Computational Geosciences*, 6 (2), 2002, pp.123-139.
7. A. Mazzia, M. Putti, Mixed-finite element and finite volume discretization for heavy brine simulations in groundwater, *Journal of Computational and Applied Mathematics*, 147 (1), 2002, pp.191-213.
8. A. Mazzia, G. Pini, Numerical performances of preconditioning techniques for the solution of complex sparse linear systems, *Communications on Numerical Methods in Engineering*, 19 (1), 2003, pp.37-48.
9. A. Mazzia, M. Putti, High Order Godunov Mixed Methods on tetrahedral meshes for density driven flow simulations in porous media, *Journal of Computational Physics*, 208 (1), 2005, pp.154-174.
10. A. Mazzia, M. Putti, Three dimensional Mixed Finite Element - Finite Volume approach for the solution of density dependent flow in porous media, *Journal of Computational and Applied Mathematics*, 185 (2), 2006, pp.347-359.
11. M. Ferronato, A. Mazzia, G. Pini e G. Gambolati, Accuracy and performance of Meshless Local Petrov-Galerkin methods in 2-D elastostatic problems, *JP Journal of Solids & Structures*, 1, 2007, pp.35-59.
12. M. Ferronato, A. Mazzia, G. Pini e G. Gambolati, A meshless method for axial symmetric poroelastic simulations: numerical study, *International Journal for Numerical Methods in Engineering*, 70 (11), 2007, pp. 1346-1365, DOI:10.1002/nme.1931.
13. A. Mazzia, M. Ferronato, G. Pini e G. Gambolati, A comparison of numerical integration rules for the Meshless Local Petrov-Galerkin method. *Numerical Algorithms*, 45 (1-4), 2007, pp. 61-74, DOI:10.1007/s11075-007-91110-6.
14. A. Mazzia, An analysis of monotonicity conditions in the Mixed Hybrid Finite Element method on unstructured triangulations. *International Journal for Numerical Methods in Engineering*, DOI:10.1002/nm3.2330, 76 (3), 2008, pp. 351-375.

15. G. Pini, A. Mazzia, F. Sartoretto, Accurate MLPG solutions of 3D Potential Problems. *CMES: Computer Modeling in Engineering & Sciences*, 36 (1), 2008, pp. 43-63.
16. A. Mazzia, G. Pini, Product Gauss quadrature rules vs. cubature rules in the meshless local Petrov-Galerkin method. *Journal of Complexity*, 26, 2010, pp.82-101, DOI: 10.1016/j.jco.2009.07.002.
17. M. Ferronato, A. Mazzia and G. Pini, A Finite Element enrichment technique by the Meshless Local Petrov-Galerkin method *CMES: Computer Modeling in Engineering & Sciences*, 62 (2), 2010, pp. 205–222.
18. A. Mazzia, F. Sartoretto Meshless Solution of Potential Problems by Combining Radial Basis Functions and Tensor Product ones, *CMES: Computer Modeling in Engineering & Sciences*, 68 (1), 2010, pp.95–112
19. S. Weill, A. Mazzia, M. Putti and C. Paniconi, Coupling water flow and solute transport into a physically-based surface-subsurface hydrological model, *Advances in Water Resources*, 34 (1), 2011, pp.128–136
20. A. Mazzia, G. Manzini, M. Putti, Bad behavior of Godunov Mixed Methods for strongly anisotropic advection-dispersion equations, *Journal of Computational Physics*, 230, 2011, pp.8410–8426
21. A. Mazzia, G. Pini, F. Sartoretto, Numerical Investigation on Direct MLPG for 2D and 3D Potential Problems *CMES: Computer Modeling in Engineering & Sciences*. 88 (3), 2012 pp. 183–209
22. A. Mazzia, G. Pini, F. Sartoretto, Meshless techniques for anisotropic diffusion *Applied Mathematics and Computation*, 236 (1), 2014, pp.54-66 doi:10.1016/j.amc.2014.03.032
23. A. Mazzia, G. Pini, F. Sartoretto, The DMLPG Meshless Technique for Poisson Problems *Applied Mathematics Sciences*, 8 (164), 2014, pp. 8233-8250 doi:10.12988/ams.2014.49739
24. A. Mazzia, G. Pini, F. Sartoretto, MLPG refinement techniques for 2D and 3D diffusion problems *CMES: Computer Modeling in Engineering & Sciences*. 102 (6), 2014 pp. 475–497
25. A. Mazzia, G. Pini, F. Sartoretto, A DMLPG refinement technique for 2D and 3D potential problems *CMES: Computer Modeling in Engineering & Sciences*. 108 (4), 2015 pp.239–262 doi:10.3970/cmcs.2015.108.239
26. A. Mazzia, G. Pini, F. Sartoretto, Accurate meshless solution of Poisson problems and discretization coarsening *Applied Mathematical Sciences*, 2 (38), 2017, pp. 1845–1870 doi:10.12988/ams.2017.76189
27. P. Teatini, G. Isotton, S. Nardean, M. Ferronato, A. Mazzia, C. Da Lio, L. Zaggia, D. Bellafiore, M. Zecchin, L. Baradello, F. Cellone, F. Corami, A. Gambaro, G. Libralato, E. Morabito, A. Volpi Ghirardini, R. Broglia, S. Zaghi, and L. Tosi, Hydrogeological effects of dredging navigable canals through lagoon shallows. A case study in Venice *Hydrology and Earth System Sciences*, 21, 2017, pp.5627–5646 doi:10.5194/hess-21-5637-2017

- PROCEEDINGS

1. A. Mazzia, F. Mazzia, D. Trigiante, Boundary Value Methods for PDEs, *Proceedings of the First International Conference on Nonlinear problems in Aviation and Aerospace*, S. Sivasundaram Editor, Embry-Riddle Aeronautical University Press, 1997, pp. 421-436.

2. A. Mazzia, L. Bergamaschi e M. Putti, Triangular finite volume-mixed finite element discretization for the advection-diffusion equation, *Large-Scale Scientific Computations in Engineering and Environmental Problems II, NNFM*, M. Griebel, S. Margenov, P. Yalamov eds., Vieweg, Braunschweig, Vol. 73, 2000, pp. 371-378.
3. L. Bergamaschi, A. Mazzia e M. Putti, A Time-Splitting technique for the solution of Density Dependent Flow and Transport in Groundwater, *Computational Methods in Water Resources, Computational Methods for Subsurface Flow and Transport*. Editors: L.R. Bentley, J.F. Sykes, C.A. Brebbia, W.G. Gray and G.F. Pinder. A.A. Balkema, Rotterdam, Vol. 1, 2000, pp.75-82.
4. A. Mazzia, L. Bergamaschi e M. Putti, A second order time-splitting technique for advection-dispersion equation on unstructured grids, *Godunov Methods Theory and Applications. Edited Review*, E. F. Toro (Editor) Kluwer Academic/Plenum Publishers, New York, 2001 pp.603-610.
5. A. Mazzia, M. Putti, Three Dimensional Godunov Mixed Methods on tetrahedra for the advection-dispersion equation, *Computational Methods in Water Resources, Developments in Water Resources*, 47. Editors: S. M. Hassanizadeh, R. J. Schotting, W.G. Gray and G.F. Pinder. Elsevier, Amsterdam, Vol. 1, 2002, pp.381-388.
6. A. Mazzia, M. Putti, Extension of Second Order Godunov Mixed Methods from triangles to tetrahedra, *Finite Volumes for Complex Applications III, Problems and Perspectives*. Editors: R. Herbin, D. Kröner. Hermes Penton Science, London, 2002, pp.413-420.
7. A. Mazzia, G. Pini, M. Putti e F. Sartoretto, Comparison of 3D flow fields arising in Mixed and Standard unstructured Finite Elements, *Computational Science - ICCS 2003, International Conference on Computational Science, Lectures Notes in Computer Science*, Editors: P. M. A. Sloot, D. Abramson, A. V. Bogdanov, J. J. Dongarra, A. Y. Zomaya and Y. E. Gorbachev. Springer-Verlag, Heidelberg, Vol. 2657, 2003, pp.560-567.
8. A. Mazzia, M. Putti Behavior of the mixed hybrid finite element method for the solution of diffusion equations on unstructured triangulations, *Computational Methods in Water Resources, Developments in Water Resources*, 47. Editors: C.T. Miller, M.W. Farthing, W.G. Gray and G.F. Pinder. Elsevier, Amsterdam, Vol. II, 2004, pp.1053-1064.
9. M. Ferronato, A. Mazzia, G. Pini e G. Gambolati, Meshless Local Petrov-Galerkin Method and standard unstructured Finite Elements for the solution of 2-D elastic structural problems, *ICNAAM International Conference on Numerical Analysis and Applied Mathematics 2005*. Editors: T.E. Simos, G. Psihoyios and Ch. Tsitouras. Wiley-VCH Verlag GmbH & Co. KGaA, Weinheim, 2005, pp.190-193.
10. A. Mazzia, G. Pini and F. Sartoretto, Analysis of an MLPG solution for 3D potential problems *8th World Congress on Computational Mechanics (WCCM8), 5th European Congress on Computational Methods in Applied Sciences and Engineering (ECCOMAS 2008) June 30 - July 5, 2008, Venice, Italy*, - CD-Rom.
11. P. Teatini, M. Putti, C. Rorai, A. Mazzia, G. Gambolati, L. Tosi and L. Carbonegnin, Modeling the saltwater intrusion in the lowlying catchment of the southern Venice Lagoon. *Management of Natural Resources, Sustainable Development and Ecological Hazards II*, C.A. Brebbia et al. eds, WIT Press, pp. 351-362, 2009.
12. S. Weill, A. Mazzia, M. Putti and C. Paniconi, Coupling water flow and solute transport in a catchment scale hydrological model, *XVIII International Conference on Water Resources, CMWR, Barcelona 2010*

13. C. Paniconi, S. Broda, M. Camporese, D. Chaumont, C. Guay, R. Harvey, M. Larocque, A. Mazzia, M. Nastev, P. Noël, S. Orlandini, M. Putti, C. Rivard, A. Rousseau, M. Sulis and S. Weill, Modeling hydrosphere interactions: assessing process representations at the hillslope subcatchment, and watershed scales 4^e *Symposium Ouranos sur la Climatologie Régionale et l'Adaptation aux Changements Climatiques*, Québec, 17-18 Novembre 2010
14. M. Ferronato, A. Mazzia, P. Teatini, C. Zoccarato, A Virtual Element Model for the prediction of long-term salt marsh dynamics, *Proceedings of the 22nd International Conference on Modelling and Simulation*, Editors: G. Syme et al., 2017, pp.305–311.

- LIBRI PER LA DIDATTICA

1. A. Mazzia, Laboratorio di Calcolo Numerico. Applicazioni con MATLAB® e Octave. Pearson 2014. ISBN: 978-88-6518373
2. A. Mazzia, Appunti di Calcolo Numerico, dispense in rete per gli studenti pubblicate sotto Creative Commons License (costantemente aggiornate)
3. A. Mazzia, Note di Analisi Matematica 2, dispense in rete per gli studenti pubblicate sotto Creative Commons License (costantemente aggiornate)
4. A. Mazzia, Appunti sparsi su Octave (2017)

- TESI:

1. A. Mazzia, Calcolo delle superfici B-spline razionali nell'ambito della grafica al calcolatore, *Tesi di Laurea, Università degli Studi di Bari*, a.a. 1993/94.
2. A. Mazzia, Mixed Finite Elements and Finite Volumes for the solution of density dependent flow and transport of radioactive contaminants in porous media, *Tesi di Dottorato, Università degli Studi di Padova*, 31 dicembre 1999.

- RAPPORTI:

1. A. Mazzia, Application of Boundary Value Methods to Parabolic Differential Equations, *Rapporto interno IRMA-CNR n.2/1995*.
2. A. Mazzia, Numerical Solutions of Hyperbolic Problems by the Method of Lines, *Rapporto interno IRMA-CNR n.3/1995*.
3. A. Mazzia, F. Mazzia, Boundary Value Methods for the numerical solutions of Parabolic Differential Equations with the Longitudinal and the Transversal Method of Lines, *Rapporto n.39/95 del Dipartimento di Matematica dell'Università degli Studi di Bari*.
4. A. Mazzia, Numerical Methods for the solution of the Hyperbolic Conservation Laws, *Rapporto Tecnico n.68, Luglio 1998 del Dipartimento di Metodi e Modelli Matematici per le Scienze Applicate, dell'Università di Padova*.
5. A. Mazzia, Three dimensional Time Splitting technique: construction of Mixed Hybrid Finite Element and High Resolution Finite Volume schemes on tetrahedral mesh, *Rapporto Tecnico n.86, Marzo 2002 del Dipartimento di Metodi e Modelli Matematici per le Scienze Applicate, dell'Università di Padova*
6. A. Mazzia, Description of the Meshless Local Petrov-Galerkin approach, *Rapporto Tecnico n.97, Marzo 2005 del Dipartimento di Metodi e Modelli Matematici per le Scienze Applicate, dell'Università di Padova*
