welcome
Days

Ready To Start?

Welcome 2023

Welcome meetings

Welcome meetings are designed to facilitate student's first contact with the campus and its facilities. Welcome meetings are a key opportunity to get acquainted with the new educational environment, exploring teaching activities and methodologies.

Computer science 11 oct

Cybersecurity 11 oct

Data science 11 oct

Earth and Climate Dynamics 25 sept

Earth Dynamics	3 oct
Environmental sustainability and education	2 oct
Geophysics for natural risks and resources	4 oct
Marine biology	10 oct
Materials Science	3 oct
Molecular biology	5 oct
Mathematics	11 oct
Physics	27 sept
Physics of data	27 sept
Sustainable chemistry and technology for circular economy	13 oct

University services for International students

We are by your side to support you from the very beginning!

The Admission and Welcome unit will assist you for all enrolment procedures and you will have the opportunity to have the support of a buddy.

SAOS Desk will provide you with all the information to finalize your residence permit application, organizing a series of online meetings to explain how to fill in the Residence Permit request.

Campus tour

In-person campus visits consist of an outdoor-only walking tour with a currently enrolled student. Walking tours last approximately 1 hour. These tours will give you the opportunity to see directly the most relevant didactic and administrative facilities. You will also have the chance to see study rooms, canteens, libraries and other important seats. Tours will start on 12th September and will end on 6th October, each week from Tuesday to Friday.

Global Citizenship Program

A 10-hrs Course addressed to International students and Italian students enrolled in English-taught degree programmes which will help them to gain confidence with different intercultural skills and their possible applications in daily life or to face the most relevant global challenges. Participants will receive an Open Badge, at the end of the Program.

Mentorship programme

The *Mentorship programme* is a project developed by the University of Padova for international students enrolled in Bachelor's, Master's, and Single-cycle degree programmes with the aim to promote an environment of inclusion, keeping in mind that diversity is also our strength, as well as an active participation in the university and local communities. The programme includes several activities such as photo online contests, guided tours of the main University buildings and webinars organized in collaboration with several offices of the University.
