The total amount of any additional funding (based on individual income and merit) is calculated up to a **maximum of 10 months**.

Only students regularly enrolled **not "*beyond the normal duration of their course of study, increased by one year*"** are eligible for additional fundings. For the purposes of calculation, the first year of enrolment is taken into consideration, regardless of any changes in the "*ordinamento*" (year of degree course structure), changes in the degree course (without having withdrawn from studies) or other cases, and the years indicated on Uniweb as "*ripetenti*" (repeating years) are also counted. Please note that what is shown on the Uniweb is not relevant for the purposes of calculation.

The **down-payment** will be calculated on the basis of the ISEE declaration, while the **balance** will also take merit into consideration (on the basis of the list of successful students for the Regional Study Scholarship).

The down-payment (by income) will be defined as follows:

<b>Number of months planned in the Grant Agreement</b>	<b>Number of months included in down-payment</b>
From 3 to 6	3
From 7 to 8	4
From 9 to 12	5

In the event that the activities carried out abroad are not recognised and registered on Uniweb by the **31 October 2022 for mobilities in 2022/23 and 31 October 2023 for mobilities in 2023/24**, the student will have to reimburse the additional funding already issued and will not receive any balance.
