University of Padua

Welcome Days

Ready To Start?

Welcome 2025

Welcome meetings

Welcome meetings are designed to facilitate student's first contact with the campus and its facilities. Welcome meetings are a key opportunity to get acquainted with the new educational environment, exploring teaching activities and methodologies.

School of Agriculture Sciences and Veterinary Medicine

Animal care	29 sept
Biotechnologies for food science	22 sept
Food and health	29 sept
Forest sciences	29 sept
Italian food and wine	3 oct
Sustainable agriculture	2 oct

School of Economics and Political Science

Accounting, Finance and Business Consulting	28 sept
Applied Economics	28 sept
European and Global Studies	30 sept
Human Rights and Multi-Level Governance	22 sept
Management for sustainable firms	28 sept

School of Engineering

Aerospace Engineering	30 sept
Chemical and process engineering	30 sept
Computer engineering	13 oct
Control systems engineering	2 oct
Electrical engineering	8 oct
Electronic engineering	1 oct
Energy engineering	7 oct
Environmental engineering	29 sept
Food IndustryEngineering	24 sept
Ict for internet and multimedia	25 sept
Information engineering	1 oct
Management engineering	24 sept
Materials engineering	8 oct
Mathematical engineering	29 sept
Mechanical engineering for product innovation	24 sept
Mechatronics engineering	24 sept
Water and geological risk engineering	29 sept

School of Human and Social Sciences and Cultural Heritage

Applied sciences to cultural heritage materials and sites	30 sept
Communication strategies	29 sept
English studies	29 sept
Italian Medieval and Renaissance Studies	29 sept
Local development	23-26 sept
Mobility studies	29 sept

School of Medicine

Medical Biotechnologies	29 sept
Medicine and surgery	20 nov
Pharmaceutical biotechnologies	29 sept

School of Psychology

Applied Child and Adoelscent Psychology	24 sept
Clinical, social and intercultural psychology	23 sept
Cognitive neuroscience and clinical neuropsychology	30 sept
Psychological science	29 sept
Social Sciences and Digital Data	29 sept
Techniques and methods in psychological science	26 sept

School of Science

Astrophysics and cosmology	8 oct
Biology of human and environmental health	6 oct

Complex and data driven chemistry	29 sept
Computational finance	29 sept
Computer science	29 sept
Cybersecurity	29 sept
Data science	29 sept
Earth and climate dynamics	29 sept
Earth dynamics	1 oct
Environmental sustainability and education	1 oct
Evolutionary Biology	2 oct
Geophysics for natural risks and resources	7 oct
Marine biology	29 sept
Materials Science	30 sept
Molecular biology	30 sept
Mathematics	29 sept
Physics	8 oct
Physics of data	8 oct
Sustainable chemistry and technology for circular economy	13 oct
Quantitative and computational biosciences	30 sept

University services for International students

We are by your side to support you from the very beginning!
The Admission and Welcome unit will assist you for all enrolment procedures and you will have the opportunity to have the support of a buddy.
SAOS Desk will provide you with all the information to finalize your residence permit application, organizing a series of **online meetings** to explain how to fill in the Residence Permit request.

UniverCity Tours

In-person campus visits consist of an outdoor-only walking tour with a currently enrolled student. Walking tours last approximately 1 hour. These tours will give you the opportunity to see directly the most relevant didactic and administrative facilities. You will also have the chance to see study rooms, canteens, libraries and other important seats. Tours will be available every week until the 4th October.
For more information please check the **detailed programme**.

Global Citizenship Program

A 10-hrs Course addressed to International students and Italian students enrolled in English-taught degree programmes which will help them to gain confidence with different intercultural skills and their possible applications in daily life or to face the most relevant global challenges. Participants will receive an Open Badge, at the end of the Program.

Mentorship programme

The *Mentorship programme* is a project developed by the University of Padova for international students enrolled in Bachelor's, Master's, and Single-cycle degree programmes with the aim to promote an environment of inclusion, keeping in mind that diversity is also our strength, as well as an active participation in the university and local communities.
The programme includes several activities such as photo online contests, guided tours of the main University buildings and webinars organized in collaboration with several offices of the University.
