PREAMBLE
The University of Padua, being in favour of the widespread dissemination of sports culture as part of the more general promotion of personal development, in accordance with the principles laid down in article 2 of the Italian Constitution, referring to the ‘EU Guidelines on Dual Careers of Athletes - Recommended Policy Actions in Support of Dual Careers in High-Performance Sport’ (approved by the EU Expert Group ‘Education & Training in Sport’ in Poznań on 28 September 2012), having regard to the Conclusions of the Council of the European Union and the representatives of the governments of the Member States on dual careers for student-athletes adopted on 14 June 2013, having transposed the Memorandum of Understanding between MIUR, CRUI, CONI, CIP, CUSI and ANDISU aimed at fostering the university careers of top athletes (Atti del Ministro [Minister’s Acts] No. 68 of 12 December 2016), intends to promote and encourage dual career student athletes.

The aim is to enable athletes to start, develop and successfully conclude an elite sports career as part of their personal growth, in combination with attaining a higher education qualification and developing specific skills.

ART. 1 ELIGIBILITY REQUIREMENTS
The University of Padua recognises the status of student-athlete to students duly enrolled in bachelor’s degree courses, master’s degree courses, single-cycle degree programmes, short specialisation degree courses and doctoral courses for the academic year 2023/24 within the normal duration of the course of study or within the following two years at the latest, who meet the following requirements:
1. achievement of outstanding sporting merit of competitive importance;
2. passing at least 20 ECTS credits in the twelve months prior to 30 September 2023 for those enrolled in study courses in years subsequent to the first;
3. passing at least 6 ECTS credits by the February 2024 examination session for students in the first year of their courses;

Please note that:
- those who graduate in the extraordinary session of the 2022/23 academic year, by December 2023, will not be considered eligible for the Project unless they re-register for the 2023/24 academic year.
‘Outstanding sporting merits’ are considered to be those achieved by:

a) athletes called to join, both for individual sports and for team sports, representative teams of Italy and/or their own country through national federations and represented at the Olympic/Paralympic Games (the category/speciality of the discipline must also be Olympic/Paralympic); the call to join must relate to participating in an official federal match/event, not to a preparation meeting;

b) absolute, youth or category champions in championships of Italy and/or their own country as per national absolute or youth rankings, as well as podium finishes in European or world championships, in one of the sports disciplines represented at the Olympic/Paralympic Games (the category/speciality of the discipline must also be Olympic/Paralympic);

c) athletes, coaches or referees called to join by their federation to represent Italy and/or their own country in the Olympic/Paralympic disciplines at the Winter and Summer Olympic/Paralympic Games (the call to join must relate to participating in an official federal match/event, not to a preparation meeting);

d) athletes who play in exclusively national championships for sports clubs in the province of Padua or in cities where the University of Padua has a decentralised seat, covered by the framework agreement with the University of Padua.

e) athletes competing for at least half of the competitive season with CUS Padova in the Basketball Championships (women’s B series in the new ‘UMANA CUS UNIPD’ team and men’s D series) and Volleyball Championships (women’s C series and men’s C series); in these cases, eligibility will be evaluated at the end of the Championships after verifying the performance, participation and sporting conduct;

Please note that:

• being formally recognised as an athlete of ‘national interest’ is not sufficient to qualify as a student-athlete;
• if you compete in Italian national championships, your federation must be recognised by CONI or CIP;
• participation in the National University Championships or the Eusa Games does not fall into the category assessed as ‘outstanding sporting merit’;
• for students belonging to the first three categories, documentation attesting to commitment and competitive results obtained within the 12 months preceding the expiry for the submission of the application will be accepted and evaluated (for the a.y. 2023/24, sporting merit achieved since October 2022 will be evaluated);
• athletes who have already participated in the same call in previous editions may reapply, provided that the new competitive documentation submitted was obtained after the previous one.
• for athletes or international athletes, sporting merit is further assessed on a case-by-case basis according to the documentation submitted.
