

Short Specialisation degrees 2019/2020 – University of Padova

Business and management - MBM: industry specific fragrance and cosmetic sector

Professional outlets: We train professionals with a science background and prepare them to be able to acquire and apply concepts, contents, methods, and techniques of management. The Master provides, on the one hand, a solid knowledge in different aspects of management - accounting and finance, organisations, marketing, production strategy, international management, business planning - and, on the other hand, a special focus on a specific industry. We use a variety of methodologies and activities in order to reach our objectives such as: lectures, seminars, case studies, business games, visits to companies, interviews, group projects, report writing and discussions, etc.

So far our graduates have been involved in the following areas of work in the Fragrance and Cosmetics Sector: product safety, project management, marketing management, product development, creative fragrance evaluation and management, science marketing, sales management, technical management, junior entrepreneur, communications.
