3) GUIDELINES FOR CORRECT COMPLETION OF LEARNING AGREEMENT

On the screen 'Learning Agreement Compilation', on the left (Table A) you should enter the activities to be carried out abroad while on the right (Table B) the activities in Padova that will be replaced by those abroad should be present. If necessary, it is possible to include the activities offered by your degree course even if they are not yet present in your Study Plan.

For some Double Degree/Joint Degree mobility programmes it is necessary to associate the exact same activities as they are present both in the offer of the host institution and in that of the Unipd degree course or curriculum.

For activities relative to '**free-credits**' (attività a scelta dello studente) it is not always possible to find an activity in Padova to substitute; in this case students should enter the activity abroad, specifying with the appropriate **flag 'TafD'** that it is free-credit, not linked with an activity in Padova, (for example, "Finnish" is not present in the academic courses on offer and therefore would be entered as a free-credit activity that cannot be linked).

Thesis work must be entered as 'Thesis Work' or 'Master Thesis Work' for Master's degree courses and linked exclusively with the activity 'Prova finale' in Padova.

PhD students should only enter the activity 'PhD research project' on Table A, which can also be indicated with zero credits.

The activities abroad not linked with any in Padova and not entered as free-credits are generally not included in the Study Plan (*fuori piano*).

Students can enter clear, useful notes for the Academic Coordinator's assessment. The "notes" field is activated after clicking on "Present the learning agreement".

When the student submits the Learning Agreement, the status changes from 'draft' (bozza) to 'submitted' (presentato), only with this status is the LA available for the Academic Coordinator who must approve/reject it.

4) ENTERING THE ACTIVITIES TO BE COMPLETED ABROAD

To enter the activities to be carried out abroad click on 'add activities'. On this screen you can enter the activities in three ways:

- from the drop-down menu 'Receiving Institution Activity (already codified)' (only available for some destinations): pay close attention to the description of the activity and select it only if it corresponds effectively to the desired activity. It is still possible to enter a different number of credits than the one indicated.
- entering the code (optional field) and the name of the foreign activity if it is not present in the drop-down menu or if the name differs even slightly
- activities for free-credits**: enter the code (optional field) and name of the activity abroad or choose it from the drop-down menu and insert the flag 'Non-associable activity (TafD)'.

Important note: in any case, pay very close attention in correctly submitting the name of the activity and ALWAYS indicating the number of ECTS credits.

In cases in which the host university does not use ECTS credits, students must apply the relative conversion and indicate the credits in ECTS. For example, in UK activities are often indicated with their English credits which are worth double the ECTS, therefore an activity that is worth 15 English credits must be indicated to be worth 7.5 ECTS (using a full stop for the decimal place).

Always enter the **SEMESTER** in which you plan to attend the activity abroad.

Instructions for students

ATTENTION:

Students registered in Bachelor's degree courses that will carry out their mobility during their Master's degree courses:

These students must enter all activities as 'Non-associable activity (TafD)' and the approval of the Academic Coordinator will be a 'conditional approval'. After their enrolment in the Master's degree course, students must enter the changes to the Learning Agreement, linking the activities abroad with those present in their online booklet.

5) ENTERING THE ACTIVITIES TO BE COMPLETED ABROAD AS FREE CREDITS

In some cases it is not possible to link the activities abroad with the free-credit activities, because they are not present in the academic courses on offer, (for example 'Finnish'). In these cases it is possible to identify the activity as 'free-credit', non-associable activity (TafD). To do so, students must enter the activity's name, code and always the number of ECTS (or select it from the drop-down menu if available) and tick the flag "**Non-associable activity (Taf D)**" so that no association with Unipd activities will be required.

6) ACTIVITIES TO ASSOCIATE FROM ONLINE BOOKLET OR FROM THE ACADEMIC COURSES ON OFFER

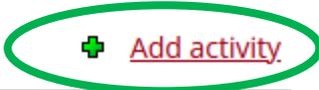

After having entered the activities to be carried out abroad, it is important to associate them with the Unipd activities that they will substitute ('Activities in the booklet to be associated').

It is not possible to associate activities abroad with 'integrations' in your booklet.

In the event that some activities are not present in the online booklet, it is possible to enter them, choosing 'Add Activity' from the "degree course didactical offer".

It is important to modify the Study Plan within the appropriate timescale, entering the Unipd activities chosen from the academic courses on offer which are not present in the online booklet.

7) ASSOCIATING ACTIVITIES

Generally, one single association takes place with all the exams abroad which substitute all the exams in Padova for an equal number of credits. In any case, it is advisable to provide, where necessary, excess credits from activities carried out abroad that can be used as free credits 'in excess' (for example, a student graduates from a Bachelor's degree with 182 credits instead of 180 needs the approval of the Degree Course Board – *Consiglio di Corso di Studio*).

However, it is also possible to make more than one 'association', if there are specific indications from the study course, which can be of different types, for example:

- a foreign exam replaces a Unipd exam
- two foreign exams replace one Unipd exam or vice versa.

Activities that are not associated are considered as "off-study plan" activities.

It is always necessary to CONFIRM each association.

Select one or more Didactical Activities (DA) from the table on the left side and associate it/them with one or more DA of the table on the right side by selecting them. Then click on **ASSOCIATE**

8) RESEARCH AND THESIS ACTIVITIES

Students who intend to carry out part or all of their thesis activity must make a **separate association**: foreign activity "**Thesis work**" or "**Master thesis work**" associated only with Unipd activity "**Final exam**" (*Prova finale*).

PhD students must enter only the foreign activity "PhD research project" without making any association, possibly entering a number of credits equal to zero.

Instructions for students

It is always necessary to indicate the name and surname of the Unipd supervisor/tutor (in this case it is also necessary to attach the letter signed by the Unipd lecturer/speaker/tutor; a facsimile of the letter is available in the "Learning Agreement" section at the following link: <https://www.unipd.it/en/learning-agreement-erasmus-out>)

9) ASSOCIATING INTEGRATED COURSES (*CORSI INTEGRATI*)

In the event that the activity abroad is linked with 'integrated courses' (corsi integrati) present in the academic courses on offer it is necessary to select the entire course and it is not possible to select single modules that make up the course.

For example, Sviluppo Sociale e Processi di Influenza nei Gruppi (C.I.) is composed of Sviluppo Sociale (MOD. A) and Processi di Influenza nei Gruppi (MOD. B). The activity carried out abroad has to be associated with Sviluppo Sociale e Processi di Influenza nei Gruppi.

10) ADDING ATTACHMENTS TO THE LEARNING AGREEMENT

To attach PDF documents, click on the icon  under "Options".

11) ENTERING LANGUAGE COMPETENCE, NOTES AND SUBMISSION OF THE LEARNING AGREEMENT

13) SENDING THE LEARNING AGREEMENT TO THE HOST UNIVERSITY

It is only possible to save an electronic copy (PDF) of the Learning Agreement (European Standard ) after the approval by the Unipd professor, thus when the Learning Agreement is in **“approved”** status.

When the Learning Agreement is in "approved" status, a "handwritten" signature is not required because the document is digitally signed.

Students who benefit from an Erasmus or SEMP grant must send the approved Learning Agreement to the host institution asking for a signature in the appropriate section "The Receiving Institution".
The copy countersigned by the host institution must be uploaded on the Mobility Online Platform.

ATTENTION: for the Erasmus+ for studies programme, during the first compilation it is required to indicate the **level of language proficiency** or that you intend to acquire at the beginning of the mobility. At the moment it is not possible to enter the level though Uniweb, therefore it is advisable to declare the level of language proficiency in the email accompanying the Learning Agreement sent to the partner University.

Students under the Ulisse - Overseas Programme and double degree programmes without an Erasmus grant are NOT required to send the Learning Agreement to the host institution.

14) LEARNING AGREEMENT “DURING THE MOBILITY”: CHANGES

Students can make **4 CHANGES**, after the approval of the first Learning Agreement, Changes are generally expected within 4 weeks from the beginning of the mobility period at the Receiving Institution or from the beginning of the second semester in case of a 9-12 months mobility.

In order to make changes to the Learning Agreement it is necessary to submit a **"New Learning Agreement"** (the button is located at the bottom of the page) and follow the same procedure described above, eliminating the associations and activities that you do not intend to take and adding other activities. To delete associations and foreign activities you must use the "trash can" icon. To delete the associated Unipd activities, you must first remove the association using the "trash can" icon, and then delete the Unipd activity using the "recycle bin" icon again.

Learning Agreement Uniweb

Instructions for students

The modified Learning Agreement must first be approved by the Unipd professor on Uniweb and then by the host university (for Erasmus or SEMP grant holders only) in order for the activities carried out to be recognised. It is therefore necessary to make the changes well in advance of the end of the mobility.

When you click on "New learning agreement" to make the changes, the learning agreement turns to a "draft" status. If you do not wish to make changes, you can delete the draft learning agreement by clicking on the "Delete draft" button.

You can also view all approved or rejected learning agreements by clicking on "Archive of Learning Agreements".

15) STUDENTS ADVANCING FROM BACHELOR'S TO MASTER'S DEGREES

Students that are progressing from their Bachelor's degree to their Master's must complete their Learning Agreement on Uniweb before graduating, entering all activities as free-credit activity, 'non-associated (TafD)' and the approval of the Academic Coordinator will be *provisional*. After enrolling in the Master's degree course, the students are required to submit a new Learning Agreement with the associations of activities offered by the Master's degree course.

16) STUDENTS OF THE SCUOLA GALILEIANA

Students of the Scuola Galileiana that want to recognise in the Galileian Study Plan one or more activities carried out during the mobility must agree them, in advance, with their Academic Coordinator and then enter the activities abroad, without making any associations. It is necessary to specify in the 'Notes' that the non-associated activities will be recognised in the Galileian study plan. Furthermore, the Galileiana Coordinator's email of approval must be attached under 'Letter of Supervisor/thesis tutor/tutor for internship'.

17) AFTER THE MOBILITY: RECOGNITION OF ACTIVITIES, "REDEFINED" LEARNING AGREEMENT AND TRANSCRIPT OF RECORDS

Recognition is not an automatic process, it involves various offices and teachers and therefore students are asked to act promptly.

Only once all the end-of-mobility documents have been handed in is it possible to proceed with recognition of the activity carried out abroad.

First of all, it is necessary to check that the last approved Learning Agreement corresponds to the Transcript of Records both as regards the name of the exams and the number of credits. In cases where the foreign activity has been

Learning Agreement Uniweb

Instructions for students

entered in Spanish or Portuguese, for example, and the Transcript of Records lists the exams only in English, it is necessary to "redefine" the Learning Agreement by replacing the activities previously entered and entering them again in English. Recognition must be based on the last approved Learning Agreement ("*redefined*").

In the event that the activities carried out abroad have a very low grade and it has not been possible to reject the grade abroad, the students can propose, with the redefinition of the Learning Agreement, that these activities be recognised "out of the study plan".

All the activities in the Transcript of Records (including the thesis activity) must be recognised on return from the mobility period and at least 15 days before the start of the degree session.

It is recommended to insert and update the "**Study Plan**" on Uniweb in the available compilation windows. Any changes to the Study Plan must be made **after the recognition of the activity carried out abroad**, also according to the indications of your own Student Office within the Department.

If an "integration" of an exam taken abroad is required, it is necessary to enrol normally on Uniweb **AFTER** the recognition has been completed and all activities entered in the online booklet.

The recognition procedure must be completed **within 5 weeks** of submitting the documentation (except in special cases such as holiday periods or closure of the University).

Once the recognition has been sent to the Student Office, activities are entered in the online booklet and students can view the recognition:

- from the online booklet, where the replaced Unipd activities appear with the weighted average resulting from the grades of the foreign activities
- from the "Home/Certificates/Autocertificazione iscrizione con esami (*self-certification of of enrolment with exams*)" section, where, in addition to the recognised foreign activities, the grades in thirtieths will also appear.

18) ATTACHING THE TRANSCRIPT OF RECORDS TO THE LEARNING AGREEMENT ON UNIWEB

After having received the PDF copy of the Transcript of Records and/or the letter/s of the thesis work from the Mobility Unit and having checked that all successfully passed activities are included in the Learning Agreement, it is necessary to attach the tor on Uniweb before starting the recognition.

Students should only attach the ToR in PDF issued by the Mobility Unit, not scanned copies or copies sent by the host institution.

ATTENTION: On the International Mobility page it is necessary to check:

- 1) that in the section "Ranking publication" the "Ranking status" is "Returned from destination" and
- 2) that in the section "Learning Agreement Compilation" the "Learning Agreement Status" is "Submitted" or "Approved", with other statuses (e.g. "the student reached the destination", "draft", "rejected", "final") it is NOT possible to attach the Transcript of Records.
