

## Short Specialisation degrees 2021/2022

---

### Human nutrition, Food Education and Safety – NUESA

Professional outlets: Attendants to this Master course will have a role as experts in areas such as nutrition, food education and food safety for the well-being of a healthy population. In addition, they can also provide useful advice for the community, such as sports or school communities or retirement homes for elderly. The field provides diverse career opportunities in healthcare organizations, community and public health (such as in the National Health Services and Food Hygiene and Nutrition Services), food systems and industry, schools, and wellness and fitness. Private practice and self-employment in the nutrition field will also offer job opportunities.
