APPLYING FOR GRADUATION

In order to apply for graduation, you need to complete an online procedure in three steps:

STEP ONE

- Log into your Uniweb personal area and **enter your thesis title** and the information about **your supervisor** within the timeframe specified below. Please enter the title exactly as it appears on the title page of your thesis, in the original language in which it is written and in English translation (if your thesis is in English, just enter the same title twice);
- **Wait for approval of your thesis title:** as soon as your supervisor has approved it from his/her Uniweb personal area, you will be notified by e-mail to your institutional e-mail address (name.surname@studenti.unipd.it);
- Once your thesis title has been approved, you can **proceed with your graduation application**.

STEP TWO

- **Apply for graduation;**
- **Fill in the AlmaLaurea questionnaire.** Please note that in order to confirm your graduation application, you need to reach the end of the questionnaire; after doing so, by going back to your Uniweb area, you will be allowed to proceed with your application and eventually confirm it;
- **Confirm and submit your graduation application;**
- **Pay the relevant 16-euro stamp duty fee** that will be generated automatically once your application has been confirmed.

STEP THREE

- **Enter your Uniweb reserved area and upload the final version of your thesis** in PDF/A format **by the set deadline;**
- **Wait for approval of your thesis:** once your supervisor has approved your thesis from his/her Uniweb personal area, your thesis will be visible to all members of the final examination board. Please note that you will not be admitted to the graduation session unless your supervisor has approved your thesis (if this is not the case, your supervisor will have to state the reason for not approving your thesis).

The guidelines for the upload of the final version of your thesis are available here: [Upload](#).

PLEASE NOTE THAT

- You need to complete the first step as soon as possible: obtaining your supervisor's approval might take some time and **you won't be able to proceed with step two until your thesis title has been approved;**
- As per article 20, paragraph 3, of the Students' Regulations, once you have applied for graduation, you won't be able to make changes to your study plan anymore;

- **Failure to pay** the 16-euro stamp duty fee will result in your **exams not being registered** in your online booklet;
- **Payment of the 16-euro stamp duty fee is compulsory** in all cases, even in case you should later decide to withdraw from the graduation session for which you had originally applied.

Starting from the Academic Year **2014/2015**, activities pertaining to your university career will **no longer be recorded on your paper booklet**.

Consequently, have you not done so yet, please remember to return it to the Student Careers Office as soon as you have confirmed your graduation application and no later than the deadline by which you are required to apply for graduation.

If needed, **your supervisor can modify your thesis title before he/she approves the final attachment**.

Please decide whether it is better for you to apply for the first or second call of the graduation session based on your academic progress.

Should you **need to opt for the second call of the graduation session** after applying for the first one, please write an e-mail to consequimentotitolo.studenti@unipd.it as soon as possible and no later than the last day set for thesis defence and/or proclamation under the first call.

For further information and guidance with regard to the application procedure, please refer to the relevant [Student Guide](#).
