A UNIQUE STUDENT EXPERIENCE
INTERNATIONAL EXPERIENCES

The University of Padova provides all students with global perspectives during their studies, whether or not they spend time abroad. The international dimension of the University is witnessed both by the growing number of programmes completely held in English and by many spontaneous activities, such as countless international research cooperation projects. Students develop an international and intercultural approach thanks to an integrated teaching method that suggests a global vision on the key elements debated during the lessons. This modern perspective is ensured by a significant presence of international visiting scientists and professors from outstanding universities and research institutes. Becoming a student of the University of Padova means accessing to an open community, made of local and international students, as well as internationally mobile incoming students with many different cultural and educational backgrounds. The University of Padova is also a member of the Coimbra Group, an association of long-established European multidisciplinary universities of high international standard. The Coimbra Group is committed to creating special academic and cultural ties in order to promote internationalisation, academic collaboration, excellence in learning and research, and service to society.

JOINT AND DOUBLE DEGREE PROGRAMMES

The University of Padova offers a variety of international joint and double degree programmes in cooperation with key partners worldwide. The programmes are based on complementary courses at the partner universities, which offer their leading expertise to the students. Students enrolling in such programmes spend one or more semesters at a partner university and acquire either a single qualification jointly signed by both academic institutions (joint degree) or the final national qualifications of the involved institutions (double degree). Among others, Erasmus Mundus Joint Master Degrees are an example of joint courses, where students are required to attend modules in at least two Higher Education Institutions in two different countries. At the end of the course, successful students will be awarded a double, multiple or joint degree. Another initiative is the Top Industrial Managers for Europe (TIME), addressed specifically to engineering students. It gives them the opportunity to attend a three-year integrated learning path, one in Padova and two at prestigious partner universities.
