INTERNATIONAL EXPERIENCES

The University of Padua provides all students with global perspectives during their studies, whether or not they spend time abroad. The international dimension of the University is witnessed both by the growing number of programmes completely held in English and by many spontaneous activities, such as countless international research cooperation projects. Students develop an international and intercultural approach thanks to an integrated teaching method that suggests a global vision on the key elements debated during the lessons. This modern perspective is ensured by a significant presence of international visiting scientists and professors from outstanding universities and research institutes. Becoming a student of the University of Padua means accessing to an open community, made of local and international students, as well as internationally mobile incoming students with many different cultural and educational backgrounds. The University of Padua is also a member of the Coimbra Group, an association of long-established European multidisciplinary universities of high international standard. The Coimbra Group is committed to creating special academic and cultural ties in order to promote internationalisation, academic collaboration, excellence in learning and research, and service to society.

JOINT AND DOUBLE DEGREE PROGRAMMES

The University of Padua offers a variety of international joint and double degree programmes in cooperation with key partners worldwide. The programmes are based on complementary courses at the partner universities, which offer their leading expertise to the students. Students enrolling in such programmes spend one or more semesters at a partner university and acquire either a single qualification jointly signed by both academic institutions (joint degree) or the final national qualifications of the involved institutions (double degree). Among others, Erasmus Mundus Joint Master Degrees are an example of joint courses, where students are required to attend modules in at least two Higher Education Institutions in two different countries. At the end of the course, successful students will be awarded a double, multiple or joint degree. Another initiative is the Top Industrial Managers for Europe (TIME), addressed specifically to engineering students. It gives them the opportunity to attend a three-year integrated learning path, one in Padua and two at prestigious partner universities.

INTERNATIONAL EXPERIENCES

INTERNATIONAL MOBILITY
The University of Padua has been promoting student mobility for over 30 years, deeply convinced of the importance of a life experience abroad in improving communication, language and inter-cultural skills, and gaining valuable soft skills.
All University of Padua students have the opportunity to spend a semester or a full academic year at a partner university either to study or to carry out research.
Thanks to the existence of several bilateral agreements with other universities all over the world, as well as the extensive participation in European programmes for research and education, the University of Padua offers many international opportunities to study abroad.
Every year thousands of students take part in mobility programmes or attend international courses, thus having the chance to study new subjects, get to know different cultures and see what other educational systems are like.
The University of Padua is also a significant player in the Erasmus+ Programme, which enables students to spend a period abroad at partner universities and attend courses, take exams, prepare dissertations or carry out internships. It also joined the Swiss European Mobility Programme (SEMP), a mobility programme which allows students to spend a study period at a partner university in Switzerland.
The ICPU – Industry Community Project, in collaboration with the University of Sydney, is another example of mobility programme that connects students with different educational and disciplinary backgrounds through the development of a case study.
