JOINT AND DOUBLE DEGREE PROGRAMMES

The University of Padua offers a variety of international joint and double degree programmes in cooperation with key partners worldwide. The programmes are based on complementary courses at the partner universities, which offer their leading expertise to the students. Students enrolling in such programmes spend one or more semesters at a partner university and acquire either a single qualification jointly released by both academic institutions (joint degree) or two degree titles, released by the involved institutions (double degree). Among others, Erasmus Mundus Joint Master Degrees are an example of joint programmes, where students are required to attend modules in at least two Higher Education Institutions in two different countries. At the end of the programme, successful students will be awarded a double, multiple or joint degree. Engineering students also have the chance to participate in one of the double degree programmes offered in the framework of the prestigious Top International Managers in Engineering (TIME) Association.
