

TYPES OF MSCA INDIVIDUAL FELLOWSHIPS

Proposals for IF involve a single beneficiary located in a Member State (MS) or Associated Country (AC).

European Fellowships (EF)

They are held in EU Member States (MSs) or Associated Countries (ACs) and are open to researchers either coming to Europe from any country in the world or moving within Europe.

- **Standard European Fellowship (EF-ST):** proposals are submitted in one of the 8 scientific areas: Chemistry (CHE); Economic Sciences (ECO); Information Sciences and Engineering (ENG); Environmental and Geosciences (ENV); Life Sciences (LS); Mathematics (MAT); Physics (PHY); Social Sciences and Humanities (SOC). Each area has a separate ranking list.
- **Career Restart Panel (EF - CAR):** it is a multi-disciplinary panel of the EFs. The experienced researchers must have had a career break in research, i.e. they were not active¹ in research for a continuous period of at least 12 months within the eighteen months immediately prior to the deadline for submission of proposals (i.e. between 10 March 2018 and 11 September 2019);
- **Reintegration Panel (EF-RI):** it is a multi-disciplinary panel of EFs. Researchers must be national or long term residents of one of the Member States (MSs) or Associated Countries (ACs) and must move or have moved directly from a Third Country (TC) to the Member State (MS) or Associated Country (AC) where the beneficiary is located;

¹ 'Active in research' means being employed or holding a scholarship in research. (See GfA)

- **Society and Enterprise Panel (EF-SE)**: it is a multidisciplinary panel of the EFs dedicated to researchers who wish to work and develop their career in the non-academic sector: the objective of this new panel is to open career opportunities for researchers outside academia.

Global Fellowships (GFs)

This action enhances the international dimension of European researchers' career by financing research projects to be carried out in two different countries. This action is based on an outgoing period to a Third Country (TC) from 12 up to 24 months and a mandatory 12 months return period to a Host Organization located in a MS or AC. The mobility rule applies to the Partner Organization in the Third Country.

The Outgoing phase in Global Fellowships is possible to any Third Country (TC). However, some entities in Third Countries (TCs) are covered by EU restrictive measures in place and might not be eligible to participate.
