

INTERNATIONAL DAY ON VIOLENCE AGAINST WOMEN

25th November 2023

The Department of Statistical Sciences celebrates the Day on Violence against women and invites you the whole the day of **November 27th** to show **your support** with a small concrete sign...

Read the poster, fill out the survey you find on the screens under the arcades, then collect a red rose petal and place it in the basket.

LET'S FIGHT THE SILENCE!
