

## **Ph.D. FINAL EXAM 29 series**

### **CANDIDATES WHO OBTAINED A 12-MONTH POSTPONEMENT**

Following the publication of the Ministerial Decree 45/2013 “Regolamento recante modalità di accreditamento delle sedi e dei corsi di dottorato e criteri per la istituzione dei corsi di dottorato da parte degli enti accreditati” the rules for the attainment of the PhD degree have changed and these rules have been included in the University regulations ‘Regolamento di Ateneo per i Corsi di dottorato di ricerca’

In its meeting of 9 March 2016 the Academic Senate has approved the guidelines for the PhD students enrolled in the 29 series. The guidelines are available online, please read them carefully.

There are two steps for the submission of the request for the review of the external evaluators and the subsequent final exam, both of them are mandatory: in the first step, PhD students have to fill in the online form and upload the required documents; the second step comes after the evaluators have submitted their reviews: in that phase PhD students will have to upload the final version of the thesis.

#### **1) First step: final exam form**

The online procedure to fill in the online form for the final exam is available **from 2 November 2017 at 12.00 (CET) to 15 November 2017 at 12.00 (CET)** at [www.uniweb.unipd.it/](http://www.uniweb.unipd.it/).

After the abovementioned deadline the link will not be active.

The online service may be subject to temporary suspensions due to technical upgrades.

If PhD students are not registered yet, they must register (instructions available at <http://www.unipd.it/ricerca/dottorati-ricerca/esame-finale-consegna-tesi-dottorati>).

Once registered, it is necessary to click on “Diploma attainment” and then on “Enter diploma attainment application”

Please note that PhD students are asked to fill in the Questionnaire to subscribe to the Alumni Association and the AlmaLaurea Questionnaire, which are part of the documents to be submitted. The receipt of the AlmaLaurea Questionnaire will have to be uploaded together with the other attachments.

The request to sit the final exam is accepted only after the payment of the revenue stamp for the diploma. The payment must be done through the MAV form that can be downloaded and printed from Uniweb (under “Diritto allo Studio e corsi estivi” and then “Tasse”). The receipt of the payment must not be submitted. PhD students must have regularly paid all the three-year PhD course fees when they submit the online final exam form.

PhD students must fill in the full form and attach the following documents:

1. Thesis in pdf/A format not heavier than 30 MB
2. Report on the activities performed during the PhD course and on publications (if any), signed by the PhD student and the supervisor
3. Disclaimer form available at [http://paduaresearch.cab.unipd.it/dottorato/liberatoria\\_en\\_2016\\_ciclo29.docx](http://paduaresearch.cab.unipd.it/dottorato/liberatoria_en_2016_ciclo29.docx)
4. Receipt of the AlmaLaurea Questionnaire

The PhD 'Libretto' (booklet) fully filled in and signed by the PhD student and the Coordinator of the Course and the student card will have to be given back to the contact person at the Department (see list below).

## **2) Second step: upload of the final version of the thesis**

Each PhD student will receive an email as soon as the evaluators have submitted their reviews. PhD students can read the reviews in Uniweb from the 'Diploma attainment board', by clicking on "View session/term details".

The reviews of the evaluators can:

- 1) be positive. In this case the PhD student is admitted to the final exam and must wait for the final exam Committee to be appointed, the thesis must not be uploaded again;
- 2) specify that there are some minor revisions to be done that do not prevent the admission to the final exam. PhD students must upload again the corrected version of the thesis in Uniweb by 31/01/2018. The corrected version of the thesis must be uploaded once and is not sent for a new review;
- 3) specify that there are major revisions to be done. The PhD student is not admitted to the final exam and must revise the thesis within 6 months. Therefore the PhD student will have to upload the thesis again in Uniweb and the evaluators will have to submit a new review. The final version of the thesis must be uploaded once in Uniweb.

If the reviews of the evaluators disagree, the negative review prevails.

In order to submit the final version of the thesis to final exam Committee, the supervisor must confirm the final version in Uniweb.
