Course Title and Description

International Problem-based Learning EXperience in Veterinary Medicine (IPLEX Vet Med) – 2nd Edition

An interactive on-line learning of 5 days spread over 2 weeks, based on discussion of case studies specifically tailored for 4 main areas of Veterinary Medicine Curriculum (Companion Animals Medicine, Farm Animals Medicine, Public Health and Wildlife Eco-pathology), supervised by professors from three European Universities: University of Padova (Italy), Universidade do Porto (Portugal), Estonian University of Life Sciences (Tartu, Estonia).

Selected students (up to a maximum of 8 students from each University) will be divided into 3 or 4 groups (maximum 6 students per group) which will work independently to discuss and solve 1 short case study for each area (same cases for all the groups), supported by a facilitator and interacting with professors from the three Universities. The teaching activity will be based on the Problem Based Learning (PBL) methodology.

Students will be evaluated by professors during their participation in the group work and for case study presentation. International ECTS grades will be used and converted in national evaluation system. A certificate of attendance will be delivered to all students.

Period

21/02/2022 – 29/07/2022
