4. RANKING LIST TO ACCESS THE DEGREE PROGRAMMES

4.1 Ranking list formation criteria

The ranking list for access to each degree programme will be formed on the basis of ECTSs and exam marks belonging to the M-PSI sector. The calculation is made as follows:

- the value of each exam will be calculated by multiplying the relative mark by the relative ECTSs. In particular, the mark "30 cum laude" is considered as 33 within the calculation.
- The final mark is calculated by summing the products thus obtained up to a maximum of 110 ECTS. In case the number of ECTS for these exams exceeds this limit, only the exams with the highest score will be taken into consideration. If the sum of the ECTSs of these exams exceeds the limit of 110, the excess ECTSs will be subtracted, for the calculation, from the exam with the lowest grade.

The formulas are therefore composed as follows:

- formula 1: $\text{Value}_{\text{exam_M-PSI}_1} = (\text{mark}_{\text{exam_M-PSI}_1}) \times (\text{ECTS_considered}_{\text{exam_M-PSI}_1})$
- formula 2: $\text{Final mark} = \text{Value}_{\text{exam_M-PSI0}_1} + \text{Value}_{\text{exam_M-PSI}_2} + \dots + \text{Value}_{\text{exam_M-PSI}_{(n)}}$

The following table shows an example of the calculation of the mark for ranking purposes.

M-PSI Exams	ECTS achieved	Mark considered in the calculation of the "exam value"	ECTS credits considered in the calculation of the "exam value"	Exam value (formula 1)
A*	9*	18	6*	108
B	8	22	8	176
C	6	23	6	138
D	8	30 E LODE (33)	8	264
E	12	28	12	336
F	6	25	6	150
G	8	27	8	216
H	4	28	4	112
I	8	20	8	160
J	8	27	8	216
K	8	20	8	160
L	2	30	2	60
M	12	27	12	324
N	6	28	6	168
O	8	24	8	192
	Total		Total	Final mark (formula 2)
	113*		110	2780

* This hypothetical student has accrued 113 ECTS in the M-PSI subject areas, exceeding the limit of 110 ECTS by 3 units. For the purposes of the ranking, the 110 ECTS credits with the highest mark are evaluated, therefore considering only 6 of the 9 ECTS of the "A" exam, where he/she obtained the lowest mark. The value of the exam in question is therefore obtained by multiplying the mark (18) by the number of credits considered (6), rather than by the number of credits achieved (9).

Admission to the chosen programme will take place **according to the order of the ranking list**. In the event of a tie between candidates in the last useful place on the ranking list, precedence will be given on the basis of the following criteria, in this order:

1. academic year of first registration in the Italian national university system (the candidate with the most recent year of registration has precedence);
2. date of birth (the youngest candidate has precedence).

4.2 Publication of the ranking lists

The ranking lists for access to the individual degree programmes (point 1.1) will be published at www.unipd.it/graduatorie-ammissione from

21 September 2021.

This publication has the value of official communication to the interested parties. The ranking lists indicate both "admitted" and "not admitted" candidates, who may become "admitted" in the next phase of the process.

Those who have not yet obtained the qualification required for access at the time of submitting the application, will be included in the ranking list of merit with reservation and, if admitted, will be able to complete the online enrolment application **only after obtaining the qualification**, which must take place by **30 September 2021**.

Students enrolled at the University of Padua will be automatically registered, while students graduating from other universities will have to update their marks in the "Qualifications" section of Uniweb.

Attention: Failure to obtain the qualification by the peremptory deadline of **30/09/2021** determines the forfeiture of the **admission ranking list**.

5. ENROLMENT, CHANGE OF PROGRAMME, TRANSFER FROM ANOTHER UNIVERSITY

In order to enrol, change degree programme or transfer from another university it is necessary to:

- pre-enrol ([point 2](#));
- **compulsorily** submit the application for assessment of the minimum curricular requirements ([point 3](#)) and be in possession of the minimum admissions requirements
- be "admitted" in the ranking ([point 4](#));
- verify the registration of the data of the admission qualification in the Uniweb reserved area. This data will be automatically acquired for students enrolled at the University of Padova, while graduates from other universities must update such data personally, during pre-enrolment procedure under the item Qualification/Statement uploading.

The number of any vacancies remaining available in the various courses after the October 5, 2021 allocation will be announced on **11 October 2021** at www.unipd.it/graduatorie-ammissione.

Such vacancies will be reallocated in a further selection, in which only candidates who meet **all of the following conditions** may participate:

- have not already enrolled;
- are not in a "cancelled" position due to failure to meet the registration deadlines indicated in the table in point 5.1;
- have graduated by 30 September 2021; failure to update the degree data will result in exclusion from the ranking list.

In these further assignments of places, applicants will compete with the **same mark** obtained during the previous assignments ([point 5.1](#)). In order to participate, it is necessary to submit an additional pre-enrolment application:

11 from October to 12:00 pm on 14 October 2021

by accessing the reserved area www.uniweb.unipd.it and clicking on the items *Home* → *Preenrolment with limited access* → *Course Type "Second Cycle degree"* → *School of Psychology – Limited access degree programmes – Further assignment*. After the completion of the enrolment of those admitted in the last assignment, the enrolment process for the academic year 2021/22 will be considered definitively closed.

6. RECOGNITION OF CREDITS FOR CAREER SHORTENING

It is possible to request the recognition of activities and exams taken (also abroad), as single programmes or in previous university careers, so that you do not have to take them again in the degree programme. To apply for recognition it is necessary:

- pre-enrol ([point 2](#)) by picking the degree programme for which you intend to apply
- submit an application for assessment of minimum curricular requirements ([point 3](#));
- submit the application for recognition of credits **for the degree programme for which you have pre-enrolled**, as indicated in the instructions that will be published, before the beginning of pre-enrolment, at www.unipd.it/avvisi-ammissione-lauree-magistrali in correspondence with the call for admission. Failure to comply with the published instructions will result in the impossibility of evaluating any recognition.

The committee in charge will evaluate the application submitted and will issue a resolution indicating the proposed year of admission to the chosen degree programme, based on the ECTS recognized:

- recognition less than 30 ECTS > proposed admission to the 1st year;
- recognition greater than or equal to 30 ECTS > proposed admission to the 2nd year.

Recognitions approved will be valid only in the degree programmes for which the application was submitted, i.e. the one selected during the pre-enrolment phase of the first selection.

It is specified that the resolution will be applicable only to the Degree Programme for which it has been presented; it will not be possible to obtain the deliberated recognition if admitted to a different Degree Programme.

Based on the proposed year of admission, you must proceed as follows:

Proposed admission to the 1st year: the admission requirements for the course to be satisfied remain the same as those indicated in this call for admission ([point 1.2](#)), without any kind of difference with respect to those who enter the first year without having obtained credit recognition.

The acknowledged credits will be automatically uploaded in the student's transcript after the completion of enrolment.

Proposed admission to the 2nd year: admission is subject to the availability of places in the chosen programme. If the number of candidates eligible for the 2nd year is higher than the number of places available, a ranking list will be drawn up for each degree programme.

The ranking is drawn up on the basis of the ECTSs and marks of the exams which have been fully recognized; partial validations are not considered for the purposes of the ranking list. Only exams **already taken and registered** at the moment of the presentation of the application for credit recognition can be recognized. The calculation is made as follows:

1. the value of each recognized exam will be calculated by multiplying the mark by the ECTSs. In particular, the mark "30 cum laude" is considered as 33 in the calculation. The formula is composed as follows:

$$\text{Value}_{\text{exam_recognised}_1} = (\text{mark}_{\text{exam_recognised}_1}) \times (\text{ECTS}_{\text{exam_recognised}_1})$$

2. The final mark is calculated by summing the products thus obtained:

$$\text{Final mark} = \text{Value}_{\text{exam_recognised}_1} + \text{Value}_{\text{exam_recognised}_2} + \dots + \text{Value}_{\text{exam_recognised}_{(n)}}$$

In case of a tie, the youngest candidate will prevail.

The rankings for admission to the second year of each course will be published on September 21, 2021 at www.unipd.it/graduatorie-ammissione.

Candidates **admitted** to the 2nd year, and winners in the relative ranking, will not appear in the ranking of the 1st year, published at the same time.

Candidates **not admitted** to the 2nd year will be automatically included in the 1st year ranking, published at the same time.
