### 4. CRITERIA FOR THE RANKING LISTS

Two ranking lists will be drawn up:
- one for non-EU citizens residing abroad;
- one for Chinese citizens joining the Marco Polo project;

Only the candidates meeting the eligibility requirements for selection, i.e. those who comply with the criteria set forth by [subsection 1.2](#) and achieve a score of **18/50 or higher** in the **English TOLC-I**, will be included in the ranking lists and therefore admitted to the degree programme. Candidates will be ranked according to their score; in case of a tie, the candidate with the highest score in Mathematics and, in order, in logical reasoning, reading comprehension, and Science, will be given priority. In case of a further tie, the youngest candidate will be given priority.

For the sole purpose of the ranking lists, extra +7 points will be awarded to the candidates submitting a **B2 English language certificate or higher (CEFR) before the closing date for selection (7 March 2022)**. The list of accepted language certificates and minimum scores is available on the following web page [https://www.unipd.it/en/language-requirement-admission-degree-programmes](https://www.unipd.it/en/language-requirement-admission-degree-programmes).

**NB:** the +7 extra points do not count for reaching the minimum score required for selection (18/50). Those who do not achieve the minimum score **in the test** will be excluded from the ranking lists, regardless of the language certificates provided.

**Important:** applicants are admitted to the test conditionally, pending verification of the eligibility requirements and of the entry qualification. The applicants who fail to meet these requirements will not be eligible for admission and therefore cannot access the programme, regardless of the score achieved in the test. Failure to meet the deadlines set forth by [subsection 1.2](#) is tantamount to forfeiture of the position on the ranking lists.

---

### 5. ENROLMENT

**5.1 Publication of ranking lists and deadlines for place acceptance**

The following will be published at [www.unipd.it/en/assessment-results](http://www.unipd.it/en/assessment-results) as of **11 April 2022**:

Candidates are admitted conditionally pending verification of the requirements stated, the awarding of the qualification - if not yet obtained- and the submission of the documents listed at https://www.unipd.it/en/study-english-how-enrol.

The candidates who fail to meet the deadlines for obtaining the qualifications (subsection 1.2) will be removed from the ranking list.

Regular updates on the latest reallocation of places will be published at www.unipd.it/en/assessment-results.

**Important:** the deadlines for the acceptance of the place and for the payment of the first instalment are binding; failure to meet them is tantamount to forfeiture of the position on the ranking list.

### 5.2 Additional learning requirements (OFA)

The students whose final score is lower than 24/50 will have to fulfil the additional learning requirement (OFA) in Mathematics by sitting the related test in one of the four dates made available by the University of Padua. The test dates and the registration procedure will be posted on the School of Engineering website at www.ingegneria.unipd.it.

If students fail to fulfil the OFA by the end of the 2022/2023 academic year, they will not be able to continue with their studies in the same or related degree programme. Nevertheless, they can apply for admission to another degree programme in accordance with the procedures laid down in the teaching regulations.
