Deadline: 9 May 2022 - 1 p.m. (Italian time zone)

PREAMBULE

Through the investment programme called "Talent in Research", the University of Padua (UNIPD) aims at supporting excellent research to be conducted within its premises. In the framework of such programme, in 2017, UNIPD announced the implementation of the "MSCA Seal of Excellence@UNIPD" initiative, which is intended to attract young researchers carrying out high quality, innovative and ambitious research, with the final goal of strengthening the University ability to gain external competitive funding.

Funding for the 2022 MSCA Seal of Excellence@UNIPD call (Programme or call) is allocated by the Italian Ministry of University and Research for a maximum budget of 1.5 million Euros. Costs associated to selected projects will be borne by the Fund for the promotion and development of the policies of the National Research Programme (PNR) as per ministerial decree no. 737 of 25 June 2021.

The call is addressed to researchers of all citizenships, who have:

For every year of activity, that is specified in the MSCA-PF project submitted for funding, a financial contribution of 50.000,00 Euros is foreseen:

Article 4 - SELECTION PROCEDURE

The International Research Office of the University of Padua is in charge of the selection procedure and, in compliance with the Seal of Excellence – MSC Actions objectives, will acquire the evaluation results deriving from the European Commission.

The International Research Office will first carry out an administrative eligibility check on all applications. Eligible proposals will be ranked based on the scores they have received from the European Commission and, considering the available budget under this call, the Office will identify the projects eligible for funding based on their ranking.

² The *Letter of Commitment of Researcher* and the *Letter of Commitment of the Host Institution* document templates are only available in English.

4.1 - Eligibility Check

At the closure of the call, all proposals shall be checked to ensure they meet the eligibility requirements in accordance with Article 2. Eligibility is checked on the basis of the information the candidate has provided in his/her application folder and verifying that all submitted documents and declarations are correct and complete.

Candidates excluded from the selection process will be informed via e-mail. Should a candidate detect an error in the eligibility check, (s)he can notify it to UNIPD, following the instructions specified in the email message. If a written notification is not sent within 5 working days after the proposal's disqualification is notified, this becomes effective.

In any case, applicants will be admitted to the selection process with reserve and UNIPD can disqualify proposals at any point of the selection process, should it find that any admission requirements are missing.

4.2 Selection of fundable projects

The University of Padua will establish a ranking list of proposals that, based on the score assigned by the European Commission and specified in the *Evaluation Summary Report*, are eligible for funding.

The financial support to the proposals in such ranking is established in accordance with the available budget.

Any case of *ex-aequo* scores between candidates shall be treated according to the procedures applied by the European Commission within the Marie Skłodowska-Curie Actions³.

The list of eligible projects and the related requested funding will be available on line at <https://www.unipd.it/msca-seal-excellence2022> (in Italian), <https://www.unipd.it/en/msca-seal-excellence-2022> (in English) and at the International Research Office for the purpose of any requests to access the documents.

Once the selection procedures have been completed, the funding assigned to the project is made available by UNIPD to the Department that is indicated in the project proposal. The budget shall include the annual cost covering the research grant awarded to the researcher and the amount covering the research costs.

Applicants who receive funding shall be appointed through a Research Fellow contract ('*Assegno di Ricerca* Type B'). The contract will be drawn in accordance with Article 3, paragraph 2, clause b) of the current University Regulations for the awarding of research grants⁴, for a total amount of Euro 40,000.00 (gross amount) per year, for the period indicated in the proposal ("duration of the project").

The hosting Department shall agree the contract starting date with the researcher, under penalty of forfeiture. The starting date shall not be later than **31 October 2022**.

Should the agreement not be started by this date, the winner shall forfeit the right to the research grant. An extension to the agreed date may be allowed in exceptional cases, e.g. if a project requires an ethics review, in case of prolonged visa procedures, or in case of justified and documented personal problems. Any request to postpone the project's starting date **after 31 October 2022** must be addressed to individual.grants@unipd.it.

The signing of the contract shall not imply a subordinate employment relationship or ensure any rights to access permanent staff positions within Universities.
