APPENDIX 2 - Credit recognition to shorten the university career

Procedure and deadlines

To recognize previously acquired credits and shorten the academic career, an online preventive evaluation request must be submitted (typically between June and the first half of July 2025). Methods and deadlines will be published by June 2025 on the page www.unipd.it/domanda-valutazione.

The appointed committee will assess the application submitted and take a decision indicating the proposed year of entry to the chosen degree programme, based on the recognised ECTS credits:

- recognition of fewer than 42 ECTS credits > proposed admission to the 1st year;
- recognition of 42 ECTS credits or more > proposed admission to the 2nd year.

It should be noted that for the purposes of counting the ECTS credits recognised for the year of admission, the following are taken into consideration:

- only the fully recognised exams (partial validations are not taken into consideration)
- only validations proposed for exams already taken and registered at the time of submitting the application for credit recognition.

Based on the proposed year of admission, candidates must proceed as indicated in the following points.

Candidates who wish to apply for credit recognition can participate in the first and second selection processes to ensure entry in the first year, even if these take place before making an application for credit recognition; in the event of admission, the recognition provided on the basis of a resolution will be validated and included in the career after enrolment.

For more information on the methods of recognizing educational activities, as well as for any clarifications on the received resolution, you can contact the Back office of your degree program: www.unipd.it/backoffice-carriere-studenti - psicologia.studenti@unipd.it.

Proposed admission to the 2nd year

The degree programme entry requirements that need to be met remain the same as those set out in this call ([point 1.2](#)), without any difference with respect to those entering the first year without obtaining any credit recognition.

Admission to the second year is subject to the availability of places in the chosen degree programme. If the number of candidates eligible for entry is greater than the number of places available, a ranking list will be prepared for each degree programme.

The ranking lists for entry to the 2nd year of the degree programme, if necessary, are drawn up based on the ECTS credits and grades of the fully recognised exams (for the purpose of the ranking list, partial validation is not taken into consideration). Only exams **already taken and registered** at the time of submitting the application for credits to be recognised can be considered. The calculation is done as follows:

1. the value of each recognised exam will be calculated by multiplying the grade by the ECTS credits. Specifically, a grade of "30 e lode" (30 with distinction) is considered to be 33 in the calculation. The formula is, therefore:

$$\text{Value}_{\text{recognised_exam_1}} = (\text{grade}_{\text{recognised_exam_1}}) \times (\text{ECTS credits}_{\text{recognised_exam_1}})$$

2. The final score is calculated by summing the products obtained in this way:

$$\text{Final score} = \text{Value}_{\text{recognised_exam_1}} + \text{Value}_{\text{recognised_exam_2}} + \dots + \text{Value}_{\text{recognised_exam_n}}$$

In the event of a tie, the youngest candidate will have precedence.

The admission ranking lists to the second year of each degree programme will be published on **19 September 2024** at www.unipd.it/ammissioni-psi-magistrali-linguainglese.

Instructions for completing enrollment, transfer, or course change are issued simultaneously with the publication of the ranking list.
