CG 3MT 2025 call – technical criteria

In principle, **the University of Queensland Rules for video entries** apply to the Coimbra Group competition. Please make sure to consult them [here](#).

For the Coimbra Group 3MT Competition, **recordings from both physical and online competitions will be accepted**, provided that:

- the **performance** is carried out **live** (even if online) and that
- the video submitted is not the best version of several recorded ones (no edits).

CG 3MT 2025 call – technical criteria

- 1) **A single static slide is permitted. No slide transitions, animations or 'movement' of any description are allowed.** The slide is to be presented from the beginning of the oration.
- 2) **No additional electronic media** (e.g. sound and video files) are permitted.
- 3) **No additional props** (e.g. costumes, musical instruments, laboratory equipment) are permitted.
- 4) Competitors exceeding **3 minutes** are disqualified.
- 5) Presentations are to be **spoken word** (e.g. no poems, raps or songs).
- 6) Presentations are to commence from the stage.
- 7) Presentations are considered to have commenced when the competitor starts speaking or moving. Don't use extra beeps or other signs to indicate the beginning of the presentation.
- 8) Coimbra Group additional rules:
 - **Videos must be filmed at an institutional live 3MT event**, and not be a “studio” recording.
 - The presentation by the doctoral researcher must stand for itself: oral introductions at the event shall not be included, not any opening and closing credits by the producers.

Additional technical specifications for videos

- 1) Video must be **as simple as possible**. Only a single static camera shot pointing at the candidate.
- 2) **Video edits are not allowed:**
 - No credits.
 - No music.
 - No introductions.
 - Only one slide illustrating the talk.
- 3) Sound quality. Please, use a **good microphone**.
- 4) Computers or any other devices are not allowed during the presentation.
- 5) As a strong recommendation, we advise that the whole body should be visible in the video during the presentation

Some content specifications

- **RESULTS!** The 3MT is about communicating research results, not mere research plans.
 - 1) Highlight the outcomes of your research.
 - 2) Avoid overstatements.
 - 3) Make your presentation easy for everyone to understand.
 - 4) Avoid trivialisation.

Last words

- **Support:** do not hesitate to contact the Coimbra Group Office (info@coimbra-group.eu) for any doubt/clarification. If needed, the Office will contact the members of the technical committee. In any case you will receive a response rapidly.
- **Transparency:** the technical committee is committed to the greatest transparency throughout the whole process.

G

Thank you!
