ANNEX 1 – RECOGNITION OF CREDITS FOR CAREER SHORTENING

Recognition of previous credits

Those who intend to access the degree programme by requesting the recognition of credits must meet the requirements to access the first year (point 1.2), including deadlines and terms to be met, with no difference compared to those who access the first year without submitting the credit recognition application.

For the recognition of credits already acquired and the shortening of a career, a specific application for evaluation must also be submitted. Instructions and deadlines for proceeding are published on March 10, 2026 on page https://www.unipd.it/ammissioni-psi-magistrali-linguainglese.

The commission in charge issues a resolution containing the list of recognized training activities/credits and the proposed year of admission, with the following criterion:

- recognition **greater than or equal to 42 CFU** > proposed admission to the 2nd year.

For the purposes of counting the credits recognized for the year of admission, only exams already taken and registered by the end of the credit recognition application procedure are considered. More information is available in the teaching regulations of the course of interest (https://www.unipd.it/corsi?ss360Query=*), regarding:

- Evaluation criteria and methods for the recognition of exams (art. 10)
- criteria and procedures for access to years subsequent to the first (art. 9)
- requirements and any eligibility necessary to take the exams of the course year to which you were eligible, in addition to the minimum recognition of credits reported here (art. 8)

The number of **places available in the 2nd year** for each course of study is published on page https://www.unipd.it/ammissioni-psi-magistrali-linguainglese by August 2026.

Proposed admission to the 2nd year

Those who intend to access the degree programme by requesting the recognition of credits must meet the requirements to access the first year (point 1.2), including deadlines and terms to be met, with no difference compared to those who access the first year without submitting the credit recognition application.

By September 2026, based on the number of applications received and the number of places available for each year, a communication on the allocation of available places is published on page https://www.unipd.it/ammissioni-psi-magistrali-linguainglese :
- in the event that the number of eligible candidates is less than the number of places available, candidates are admitted to the proposed admission year;
- in the event that the number of candidates eligible for the 2nd year exceeds the available places, a ranking is drawn up in order of score, based on the credits and marks of the recognized exams. The score is calculated as follows:
  - The grade of each recognized exam is multiplied by the relative CFU (in the calculation, the grade 30/30 laude is counted as 33);
  - the products thus obtained are then added[3];

  In the event of a tie, priority is given to the youngest candidate.

For the purposes of drawing up the ranking, only exams that have been recognized and already taken and registered by the end of the credit application procedure are considered.
Eligible[4] and *non-admitted*[5] candidates can only enrol in the 1st year by participating in the selections as indicated in point 1.2, with no difference compared to those who access the first year without submitting the credit recognition application.

After receiving the resolution of recognition of credits and being admitted to any rankings for access to **years subsequent to the first**, the deadlines for completing the procedures for access to the degree programmes are as follows:
- enrolment: from the day of publication of the ranking list and by 30 September 2026 (full day);
- incoming transfer: from the day of publication of the ranking list and by 30 September 2026 (full day);
- Degree programme change: from 1 September (or from the day of publication of the ranking list, if later) to 30 September 2026 (full day).

Instructions for completing enrolment, transfer or degree programme change after receiving the credit recognition resolution are available on page www.unipd.it/istruzioniaccesso-triennali-magistrali-ciclounico.

Admission is carried out in order of ranking; in the event that places become available following the withdrawal by successful students, further scrolling by direct call by the Settore Immatricolazioni e Prove di Accesso will be carried out, in any case no later than 31 October 2026.

---

[3] By way of example, an example with three exams is proposed: exam A (6 credits) grade 24; exam B (9 credits) grade 30; exam C (6 credits) mark 27.
The sum of the products of CFU and grade of each exam is: [(24 x6) + (30 x 9) + (27 x 6)] = 576

[4] A candidate is eligible if in the resolution the commission proposes admission to the 2nd year.
[5] A candidate is admitted if, in addition to being suitable, he or she is in a useful position in the ranking.
